

SHAPING REALITY ENHANCING IT

INVESTOR DECK | 2024

THE COMPANY

Founded by Dr. Madhu Kumar Reddy AeroAegis is a USA-based **deep-tech B2B company** leading the **B2B digital transformation revolution**, through its **AI/ML-driven innovative products** like Maturity Spectrum 360, SmartChaos Lab, AeroPulse AI, AeroInfra Vue, and AeroGenix, AeroEdge IIoT.

Vision

To globally lead AI-powered digital transformation, enabling industries to achieve operational excellence and resilience through intelligent cloud and edge automation.

Mission

To develop AI and automation solutions that integrate across cloud, edge, and IIoT, optimizing operations, enhancing resilience, and driving sustainable growth.

KEY HIGHLIGHTS

SPECIALIZATION

AI/ML-backed cloud, edge, IIoT solutions, pioneering R&D in Quantum Computing, Web3 and Blockchain

REVENUE STREAMS

- AI-backed products & SaaS offerings
- Consulting & Center of Excellence (CoE) solutions
- R&D services

FINANCIAL POSITION

Pre-revenue stage; seeking seed funding

MARKET EXPANSION

Expanded operations to Sharjah, UAE

THE PROBLEM

Workflow Bottlenecks

Siloed operations and **manual processes** delay decisions, **raise costs**, and limit scalability.

Lack of Cloud Insights

Poor analytics and visibility lead to **inefficient cloud** and hybrid system management.

IT Maturity Blind Spots

Businesses **struggle to benchmark** IT maturity and plan transformation effectively.

IT Integration Challenges

Hybrid and multi-cloud setups **create inefficiencies** and **security risks**.

Resilience Gaps

Critical systems **lack** proactive failure simulations, **increasing downtime risks**.

Operational Inefficiencies

Delays in real-time analytics and predictive maintenance cause downtime and **productivity loss**.

OUR SOLUTIONS – AEROAEGIS PRODUCTS

Maturity Spectrum 360

AI-powered **IT maturity assessment** to benchmark organizations, **identify gaps**, and **create transformation roadmaps**, ensuring strategic **alignment** and **measurable improvements**.

SmartChaos Lab

Patented **chaos engineering** with game theory to **simulate failures** and **optimize resilience**, reducing **downtime** and **enhancing business continuity**.

AeroGenix

Intelligent workflow automation using **Agent AI and Gen AI** to streamline operations, **eliminate manual tasks**, and **enable dynamic scalability**.

AeroInfra Vue

Zero-code hybrid and multi-cloud **management platform** that **simplifies** IT operations, **accelerates deployment**, and **reduces resource** requirements.

AeroPulse AI

Predictive analytics for cloud and hybrid environments, **providing real-time insights** to optimize performance, **allocate resources**, and **cut operational costs**.

AeroEdge IIoT

Real-time analytics and predictive maintenance for Industrial IoT, **improving efficiency**, **minimizing downtime**, and **ensuring seamless integration**.

PRODUCT SOLUTIONS

Transformative Solutions For Industry Challenges

Maturity Spectrum
360

**Strategic Blind
Spots in
Transformation**

Benchmarks IT maturity and identifies gaps for actionable transformation roadmaps.

SmartChaos
Lab

**Resilience and
Downtime
Vulnerabilities**

Simulates failures and provides strategies to optimize system resilience.

AeroPulse
AI

**Lack of Predictive
Insights for Cloud**

Provides advanced analytics and insights for optimizing hybrid and cloud infrastructure.

AeroInfra
Vue

**Complexity in IT
Ecosystem
Integration**

Offers zero-code deployment and simplified multi-cloud management to reduce complexity.

AeroEdge
IIoT

**Operational
Inefficiencies in IIoT**

Enhances predictive maintenance and real-time analytics for IIoT ecosystems.

AeroGenix

**Workflow
Inefficiencies &
Fragmentation**

Streamlines operations using adaptive automation and real-time workflow optimization

OUR COMPETITIVE EDGE

AI-first approach

AI/ML at the core of all products allows for **data driven insights**, **predictive analytics** & **automated decision-making**

Game theory & Nash equilibrium

Proprietary and patented game theory algorithm allows for **optimized strategic responses** to expected system failures

Holistic B2B solutions

One-stop shop for digital transformation through an extensive product suite, consulting services and R&D innovations

Dedicated Centers of Excellence (CoE)

Positing as a **strategic partner for businesses** aiming to scale and optimize their IT infrastructure

Patented technologies

Two patented technologies reflect our **innovation leadership** in **AI-driven resilience** & **real-time system optimization**

Our key differentiator: Deep AI Tech

- **AI/ML driven products**
Algorithms that drive automation, predictive analytics, and system optimization.
- **Game theory integration**
Integrates Nash Equilibrium into chaos engineering, setting us apart from competitors.
- **Patented technology**
Strong competitive edge due to defensible IP of SmartChaos Lab and AeroGenix.
- **Zero-code infrastructure**
Intuitive zero-code solution for multi-cloud deployment & simplified IT management.
- **Holistic maturity assessment**
AI-powered insights & gamification for continued improvement

OUR CORE PRODUCTS

Our Core Product

MATURITY SPECTRUM 360

Maturity Spectrum 360, powered by AI, guides organizational excellence with comprehensive assessment, benchmarking, and enhancement across dimensions through its three portals.

Spectrum 360

The core of transformation, offering assessment, improvement, and benchmarking against industry standards.

Spectra Store

Invites organizations to publish maturity frameworks, showcasing expertise and leadership.

Spectra Hub

Showcases expertise, engages clients, fosters community for transformation.

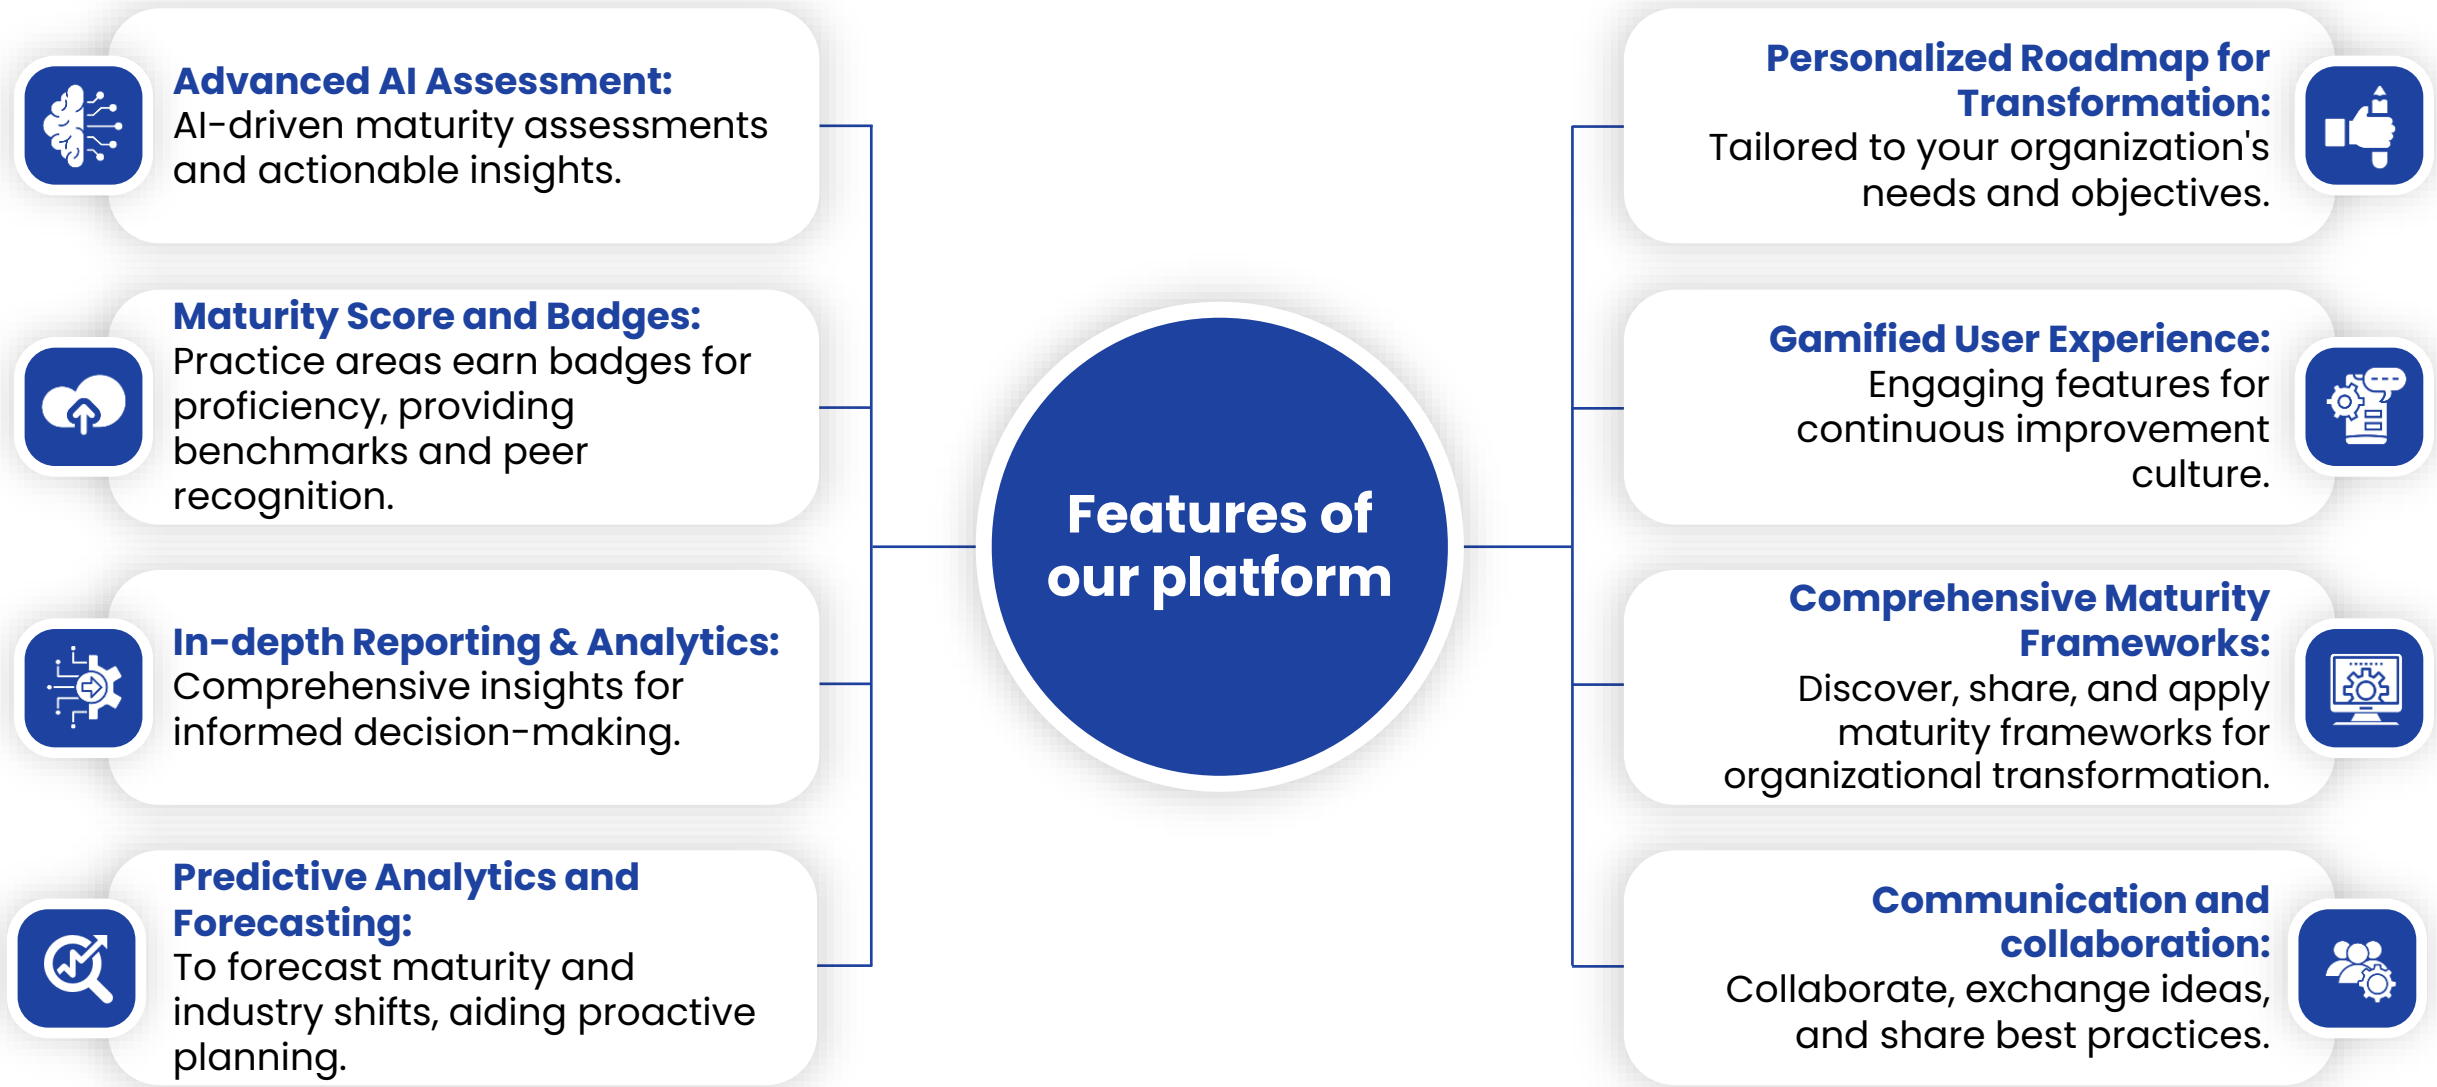

Spectra Insight

Spectra Insight, core of Maturity Spectrum 360, guides organizations with advanced AI recommendations for transformation.

FEATURES OF OUR MATURITY 360 PLATFORM

Our distinguishing features

ADVANTAGES OF THE MATURITY SPECTRUM 360

The USP of Maturity Spectrum 360

Fostering Engagement
Maturity Spectrum 360 gamifies assessments, boosting engagement and commitment.

Driving Collective Growth
Cross-functional collaboration drives growth, fosters diverse perspectives & continuous improvement.

Tracking Success: Progress and Celebrations
Timeline view tracks growth, fosters continuous improvement.

Dynamic Strategy

Promotes dynamic assessment and strategy adaptation for the digital era.

Actionable Recommendations

Prioritizes areas for improvement, enabling informed decision-making and targeted actions.

Growth Through Learning Hub

Dynamic hub empowers users for informed decision-making & development.

BUSINESS LINES OVERVIEW

Products

Innovative products for greater efficiency and resilience

Maturity spectrum 360

SmartChaos Lab

AeroPulse AI

AeroGenix

AeroInfra Vue

AeroEdge IIoT

Consulting & solutions

Consulting and digital transformation services for complex modern IT environments

IT infrastructure management

IT maturity & system resilience

Advanced AI and ML capabilities

Holistic big data and analytics

Comprehensive DevOps & cloud services

Secure blockchain implementation

Agile micro-services architecture

R&D

R&D initiatives focusing on future technologies and breakthroughs

Quantum computing

Blockchain technology

AR and VR

AI and ML

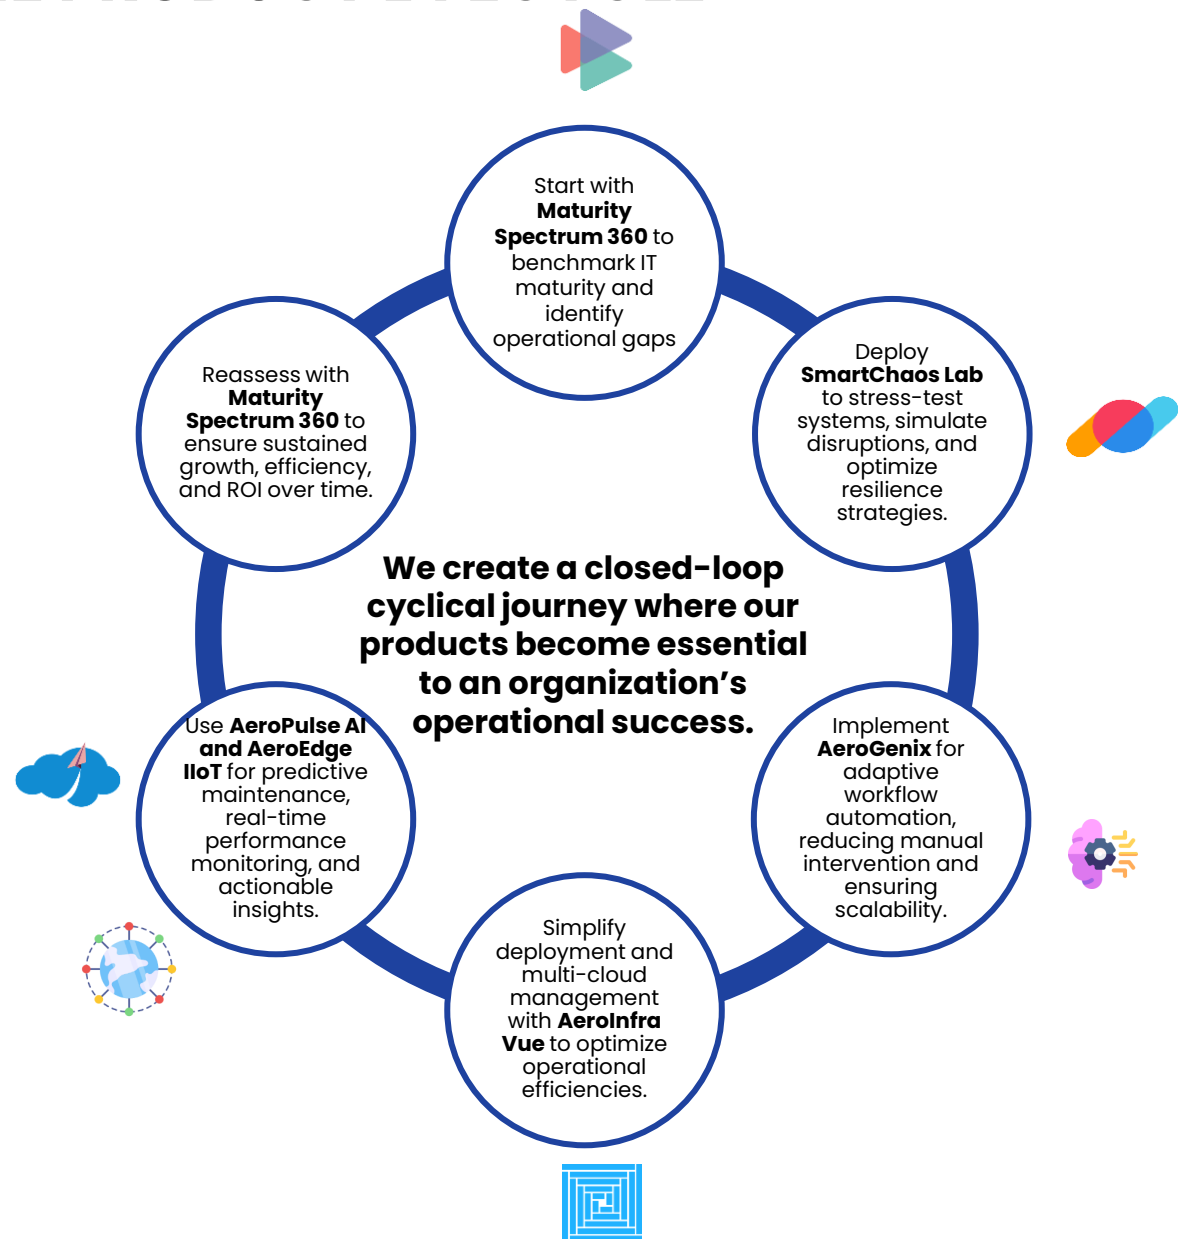

IoT & Edge Computing

PRODUCT MARKET FIT

 Maturity Spectrum 360	 AeroInfra Vue	 AeroPulse AI	 SmartChaos Lab	 AeroGenix	 AeroEdge IIoT
Organizations undergoing digital transformation, seeking IT maturity assessments & strategy development	Companies managing multi-cloud or hybrid-cloud environments	Cloud-native and hybrid cloud businesses needing performance optimization	Large enterprises with mission-critical systems (e.g., finance, healthcare, telecom)	Enterprises needing workflow automation and adaptability across diverse operational ecosystems	Industrial IoT-driven industries (e.g., manufacturing, utilities, energy)
USPs: AI-driven assessments, gamification, and industry benchmarking	USPs: Zero-code, drag-and-drop interface for simplified deployment	USPs: Predictive analytics, anomaly detection, and actionable insights	USPs: Game theory and AI-driven resilience optimization	USPs: Adaptive Agent AI and GenI AI to automate complex workflows and optimize operations	USPs: Real-time analytics, predictive maintenance, and system integration

THE PRODUCT LIFECYCLE

INVESTOR BENEFITS

-  **Long-term customer engagement**
Natural upselling opportunities ensuring recurring revenues and increased customer retention.
-  **Value for multiple industries**
Versatile and scalable lifecycle, applicable to a range of industries.
-  **High RoI for global enterprises**
Reduced operational inefficiencies and costly downtimes as well as optimized performance.
-  **Sustained growth and profitability**
Ai-driven innovation and patented technologies enhances customer value, scaling revenue and expanding market share.

CONSULTING & ISV PARTNERSHIP WITH

AeroAegis' **official consulting and Independent Software Vendor (ISV) partnership** is expected to drive advanced cloud solutions across **Middle East, UAE, and Europe**.

Enhanced Cloud Solutions

Alibaba's cutting-edge cloud technology, optimized for AeroAegis' AI-driven solutions.

Joint Go-To-Market Strategy

Alibaba's vast network to expand market reach, tapping into rapidly growing regions.

Technical Excellence

Alibaba's scalable and secure deployment of digital transformation solutions.

INVESTOR VALUE PROPOSITION

- **Increased market credibility and trust** with a globally recognized tech giant
- Combined market approach for higher customer acquisition and **improved revenue synergies**
- Joint PR campaign to **enhance visibility** and **brand authority** in Europe & MENA
- Shared R&D initiatives for **innovation boost**
- **Access to larger clientele** for more consulting & SaaS contracts

FUTURE ROADMAP

- **Joint innovations** in AI-as-a-Service, Edge Computing, and Sustainable Cloud Solutions.
- **Co-hosted events & initiatives** to show combined strengths and attract new business opportunities

BUSINESS MODEL

Product Revenue (~60%)

Multi-tiered SaaS revenue, with advanced AI modules, integrations and premium support and add-ons, catering to diverse business sizes.

Consulting Revenue (CoEs) (~30%)

Long term recurring contracts offering bespoke AI and cloud transformation strategies; expert consulting services in Industry 4.0, IIoT, big data analytics etc.

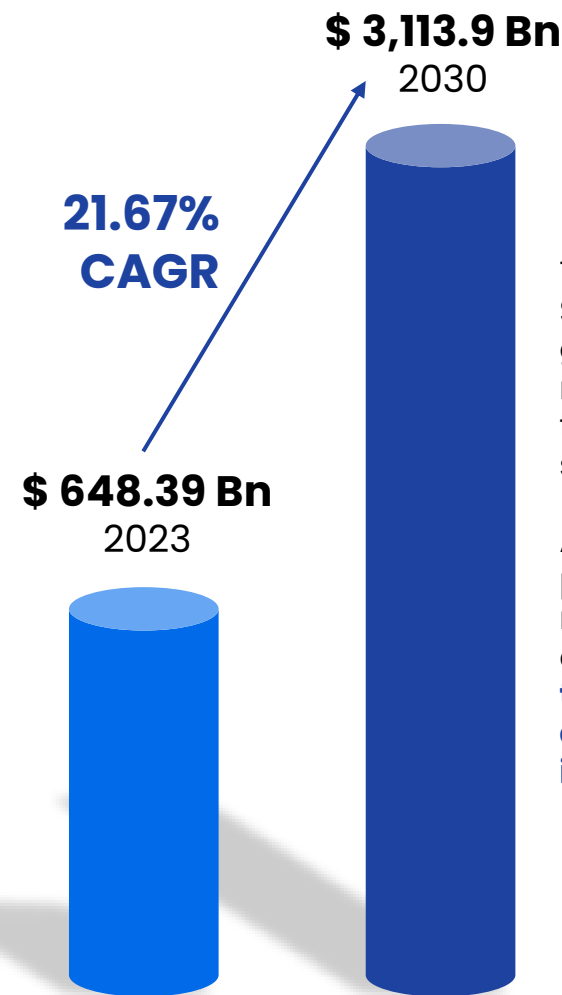

\$200-\$300/ hour

R&D Services (~10%)

Co-innovation projects in quantum computing, AI-as-a-Service, next-gen edge computing; licensing opportunities for patented technology; custom AI & IIoT solutions

MARKET SIZE

The demand for "Maturity Spectrum 360" is driven by the global need for effective maturity assessment tools and the existing gaps in available solutions.

As businesses across industries prioritize assessing their maturity levels for competitiveness, **the market for comprehensive and user-friendly tools like this is set to grow significantly.**

The Global Digital Transformation Market

Source: [GlobeNewsWire](#)

Key Growth Drivers:

- Digital Transformation Demand**.....
Push for digital transformation in industries drives the need for maturity assessments.
- Versatile Assessment Tools**.....
Tools assess various frameworks, expanding market appeal.
- SaaS Market Opportunity**.....
Growing SaaS market boosts cloud-based assessment tools.
- AI Integration Advantages**.....
Deeper real-time data-driven insights, reduced costs, increased efficiencies & enhanced system resilience.
- Customization Addresses Needs**.....
Customizable tools cater to specific business requirements

MARKET SIZE

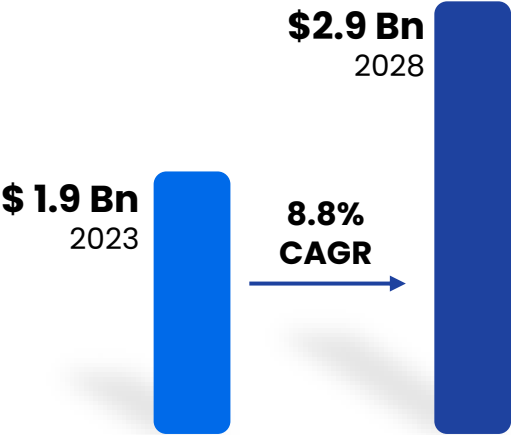

KEY MARKET STATISTICS

SmartChaos Lab

The Global Chaos Engineering Tools Market

Source: [GlobeNewsWire](#)

33%

CAGR of AI/ML for cloud & edge computing, reaching \$257 Bn by 2026

\$1.2 Tn

Size of cloud computing market by 2027 growing at a CAGR of 17.5%

23%

Annual growth rate of the niche system resolution solutions market

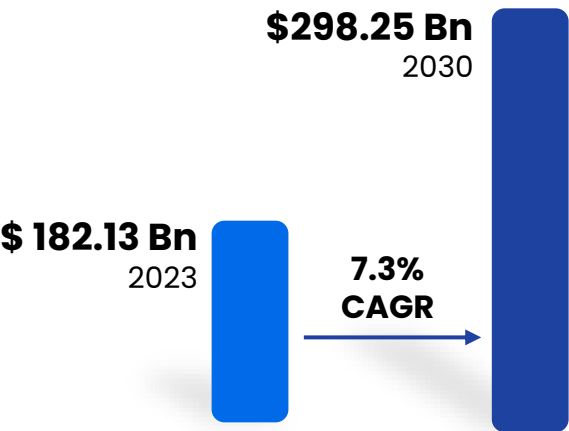

\$298 Bn

Size of the global IIoT market by 2030.

AeroEdge IIoT

The Global IIoT Market

Source: [MMR](#)

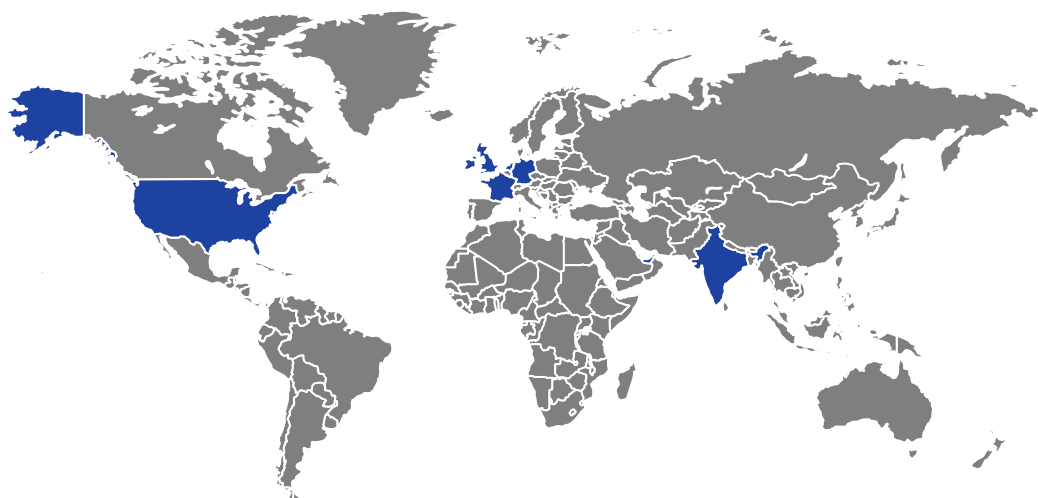

TARGETING THE MARKET WITH OUR PRODUCT SUITE

PRODUCT	REVENUE MODEL	TAM	SAM	SOM (Y1-Y3)	SAAS TIERS	DRIVERS
AeroGenix GPT	Token-based API, enterprise inference	\$257B (AI for cloud & edge)	\$3B (Enterprise GenAI Platforms)	\$50M (API + on-prem AI)	Basic, Pro, Premium, Enterprise	Per-token API usage, enterprise on-prem deployments, fine-tuning APIs, secure inference
Maturity Spectrum 360	Subscription SaaS for IT Maturity Benchmarking	\$3.1T (Digital Transformation)	\$500M (Maturity & Governance Tools)	\$25 M		Org-wide assessment, Spectra Store licensing, AI reports, Spectra Hub Community
SmartChaos Lab	Chaos Engineering Platform – SaaS	\$2.9B (by 2028)	\$400M (multi-cloud resilience)	\$20 M		Game theory-based resilience, CI/CD integration, Grafana dashboards, enterprise observability, fault simulation workflows
AeroInfra Vue	Zero-code multi-cloud management	\$1.2T (Cloud Mgt. Tools)	\$2B (Hybrid/Multicloud Ops Tools)	\$30 M		Drag-and-drop design, real-time ops, integrations, workflow orchestration
AeroPulse AI	Predictive Analytics for Cloud/Hybrid Ops	\$1.2T (Cloud + Ops AI)	\$800M (CloudOps & Monitoring)	\$18 M		Fuzzy logic-based anomaly detection, pattern analysis, real-time alerts
AeroEdge IIoT	IIoT Analytics & Monitoring SaaS	\$298B (IIoT by 2030)	\$100M (Edge Analytics SaaS)	\$15 M		Device driver licensing, protocol integrations, edge ML models
Consulting & CoE	Strategic IT, AI/ML, Cloud Transformation Consulting	-	-	\$60 M	Project-based	\$200–300/hr, industry-specific AI/Cloud/DevOps transformations
R&D and Patents	Licensing, Custom R&D in AI/Quantum/Edge	-	-	\$5 M		IP licensing (e.g., SmartChaos, AeroGenix), co-innovation with partners (e.g., Alibaba, Mastek)

TARGET MARKET

Short term (1-3 yrs.)

**UAE, US, UK, Singapore, France, Netherlands,
Germany and India**

Long term (4-7 yrs.)

European countries & the Middle East

TARGET CUSTOMERS

SmartChaos Lab

- Large firms with mission critical applications (finance, healthcare, telecom)
- Firms relying on public, private or hybrid cloud infrastructures
- Enterprises scaling their DevOps practices
- E-commerce & SaaS companies

Maturity Spectrum 360

- Enterprises undergoing digital transformation
- Consulting firms and system integrators
- CIOs and IT leadership

AeroEdge IIoT

- Manufacturing companies using IIoT devices
- Energy and utility industries requiring smart grids
- Businesses requiring real-time tracking & inventory management

AeroPulse AI

- SaaS providers operating on public or hybrid clouds
- DevOps & SRE teams with large cloud environments
- Financial institutions with high transaction volumes

AeroInfra Vue

- Enterprises leveraging multiple cloud providers
- IT teams needing drag-and-drop infrastructure management
- Cloud service providers offering an easy-to-use interface

AeroGenix

- Enterprises automating workflows and AI-driven decision-making for efficiency.
- Businesses integrating AI into SaaS and cloud-based operations.
- Industries using AI for compliance, healthcare, and personalized retail.

OUR COMPETITIVE LANDSCAPE

MATURITY SPECTRUM360

AI-driven maturity assessments
Predictive analytics & forecasting
Maturity framework repository
Practice area maturity
Industry benchmarking
Knowledge hub & community engagement
AI-powered Spectra insights and strategic recommendations
Continuous improvement
Gamification for engagement
Holistic framework support
Cloud and edge integration

COMPETITIVE ADVANTAGE

Customization

Users define their own maturity levels, tailored to unique needs.

Targeted Solutions

Holistic B2B solutions focused on targeting unique digital transformation challenges through a diverse product suite.

Comprehensive Tracking

Provides timeline view for progress tracking, notification reminders for score updates.

AI Capabilities

AI conducts assessments, offers personalized improvement suggestions.

User Engagement

Incorporates gamification elements for enhanced user engagement and competitive atmosphere.

GO-TO-MARKET STRATEGY

Customer-Centric Approach	AI Utilization	Strategic partnerships	Continued R&D focus	Aggressive Marketing	Competitive Pricing
 - Tailored product to meet unique organizational requirements. - Focus on resilience, cloud optimization, digital transformation.	 - Leverage AI as a core differentiator in marketing and product demos. - Emphasis on predictive & actionable insights.	 - Industry leaders - Technology providers (AWS, Azure, GCP)	 - Continued enhancement in features. - Focus on quantum computing, artificial superintelligence, blockchain.	 - Digital campaigns - Industry events - Partnerships - Targeted outreach.	 - High-value competitively priced SaaS products - Clear ROI benefits for early adopters

GROWTH ROADMAP

Year 1 (2024-2025)

- Launch Maturity Spectrum 360 & SmatChaos Lab in Q1
- Launch CoEs
- Secure partnerships with cloud providers system integrators
- Begin R&D on next-gen technologies

Year 2 (2025-2026)

- Launch AeroEdge IIOT, AeroInfraVue and AeroPulseAI
- Expand to Europe, Middle East and South East Asia
- Industry focused digital marketing campaigns
- \$5million ARR by end of 2025

Year 3 (2026-2027)

- Launch AeroGenix
- Commercialize R&D in quantum computing & superintelligence
- Launch AI-as-a-Service offerings
- Integrate new features, tools & technologies with existing products
- Prepare for Series B funding or IPO

Year 4-5 (2027-2029)

- Integration of products across industries
- Cross-product synergies
- Strengthen market leadership
- Continue to outperform peers
- \$50 million ARR by 2029

Long-term (2029 & beyond)

- Pursue either IPO or strategic acquisition

MANAGEMENT TEAM

Dr. Madhu Kumar Reddy

Founder And President (CEO)

- Has over 18 years of experience at Intel and Samsung.
- Specializes in AI, ML, DevOps, Cloud Tech, RPA, and Blockchain.
- Committed to continuous learning with advanced degrees in Computer Science and Cloud Technology.

Dr. Nithin Manmohan

**Co-Founder And CTO
(Chief Architect)**

- Chief Architect, has 13 years of experience in IT.
- Advanced expertise in AI, ML, NLP, Big Data Analytics, Cloud Development, and more.
- Enriched by roles at HP.

Avinaash Pathrae

Chief Experience Officer (CXO)

- Has over 13 years of experience in IT.
- Drives AeroAegis's tech advancements, specializing in infrastructure, operations, and platform engineering.
- Expertise in Azure, AWS, and GCP, providing invaluable contributions to the team.

Bhaskar Nagaraja

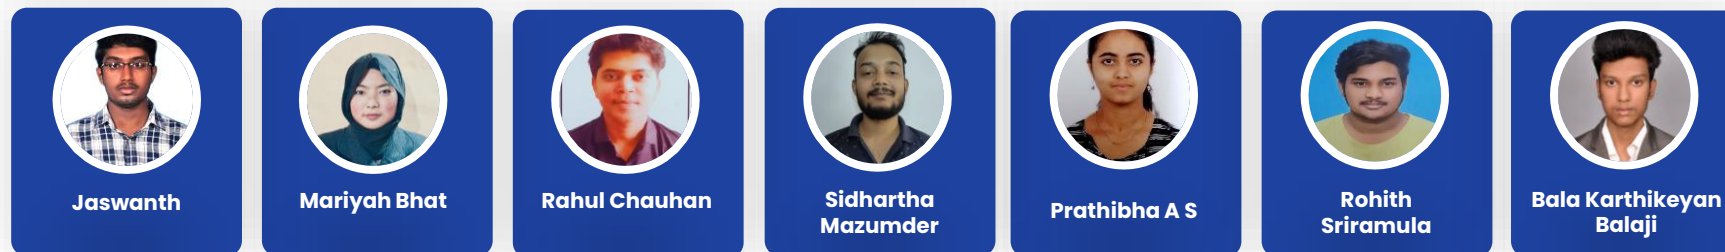

Chief Information Officer (CIO)

- Over 25 years of experience at Intel.
- PMI South Asia Champion Advisory Committee Member.
- Brings expertise in AI/ML and IoT to AeroAegis.
- Advises on strategic insights and fosters innovation within the company.

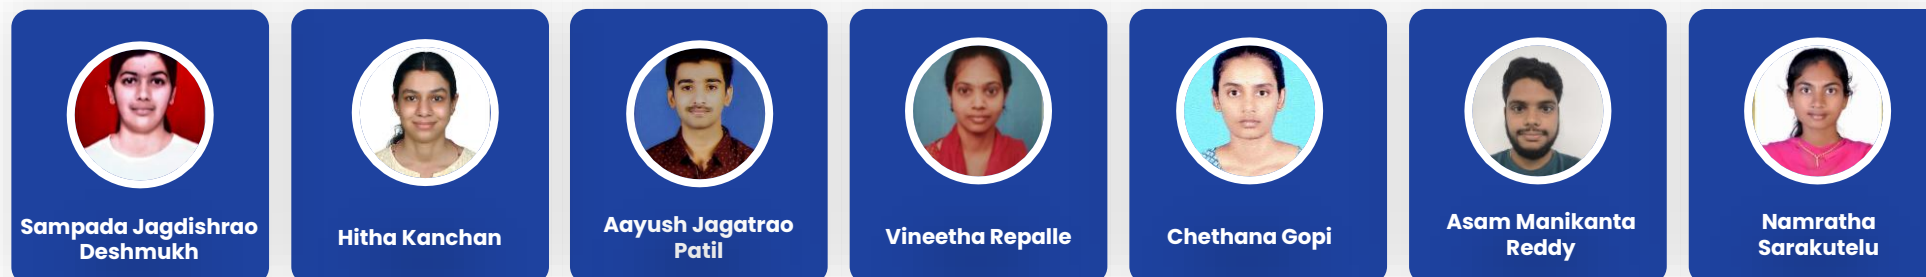

OUR TEAM

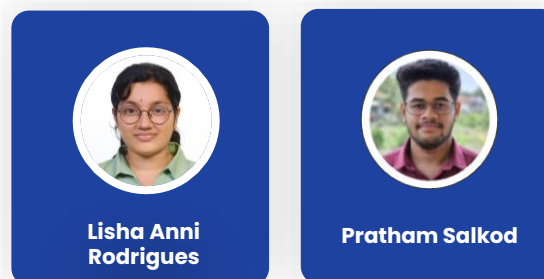

Frontend Development Team

Backend Development Team

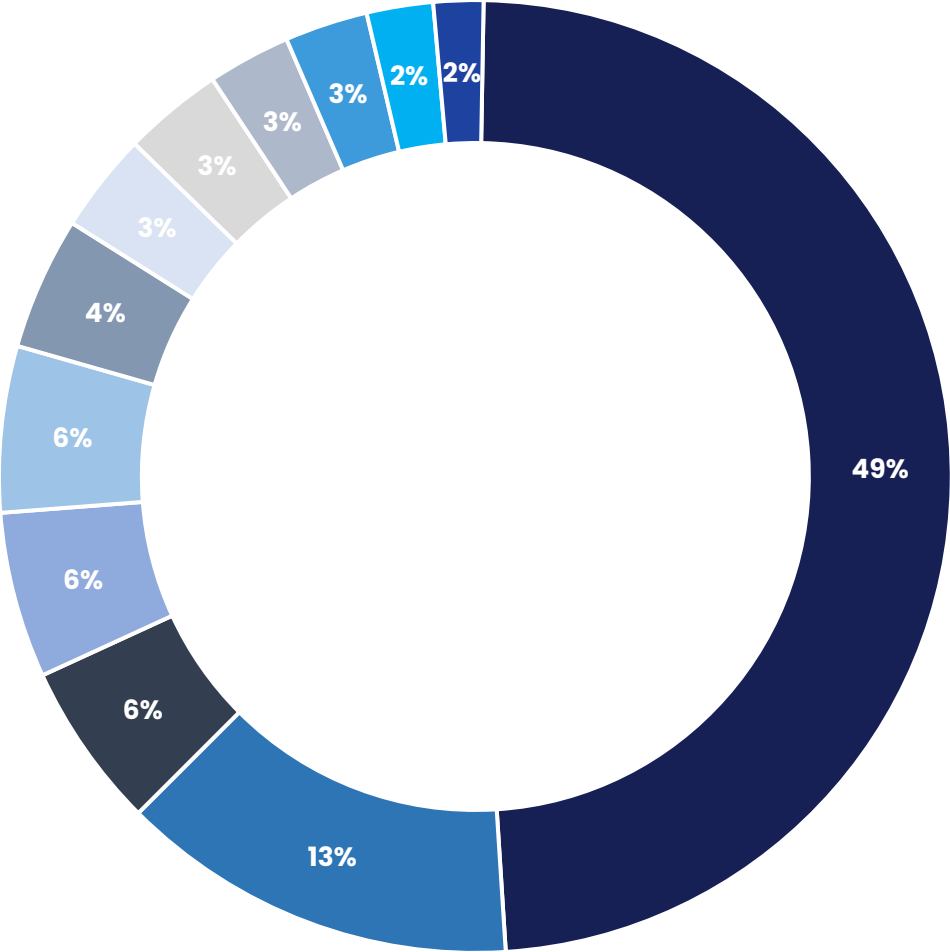

AI/ML Engineers

BOOTSTRAPPED INVESTMENT OVERVIEW

The founders have invested **\$1 million** over the past year to strategically launch the company.
The uses of funds are:

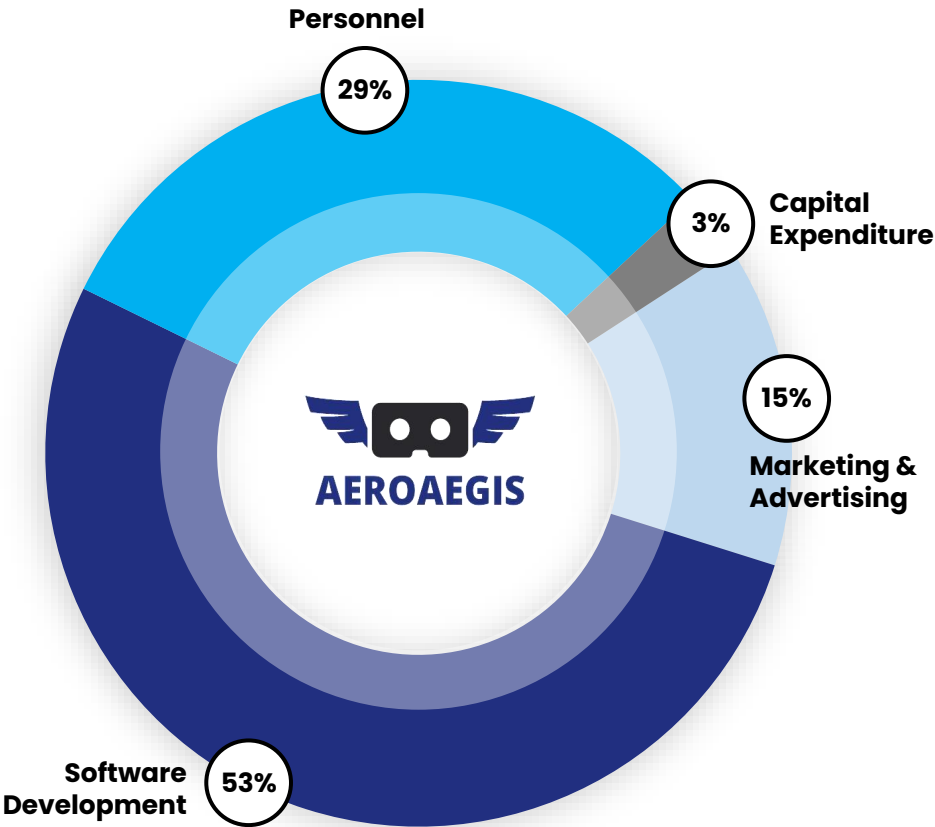

Employee salaries	Salaries for 20 employees
Azure cloud infrastructure	Sandbox development and QA environments
Registration & compliance	Annual compliance, FEMA regulations, trademark registration
Sales & marketing partnership	Partnered with Poised Media
Office 365 Licenses	Procured 50 licenses
Patent filings	Filed patents for SmartChaosLab & AeroGenix
Sales & marketing tools	Procured Dynamics 365 licenses
Azure DevOps tools	Azure DevOps for employee boards, pipelines etc.
Monitoring and code quality tools	Implemented ELK stack and SonarQube
Hiring & HR tools	LinkedIn HR premium subscriptions
Software licenses for HR management	Procured Zoho Payroll and Zoho People
Learning & development	Partnered with Udemy and LinkedIn Learning

FUNDRAISE

We are raising
\$2 million
in Equity Raise to fund the next 24 months of growth

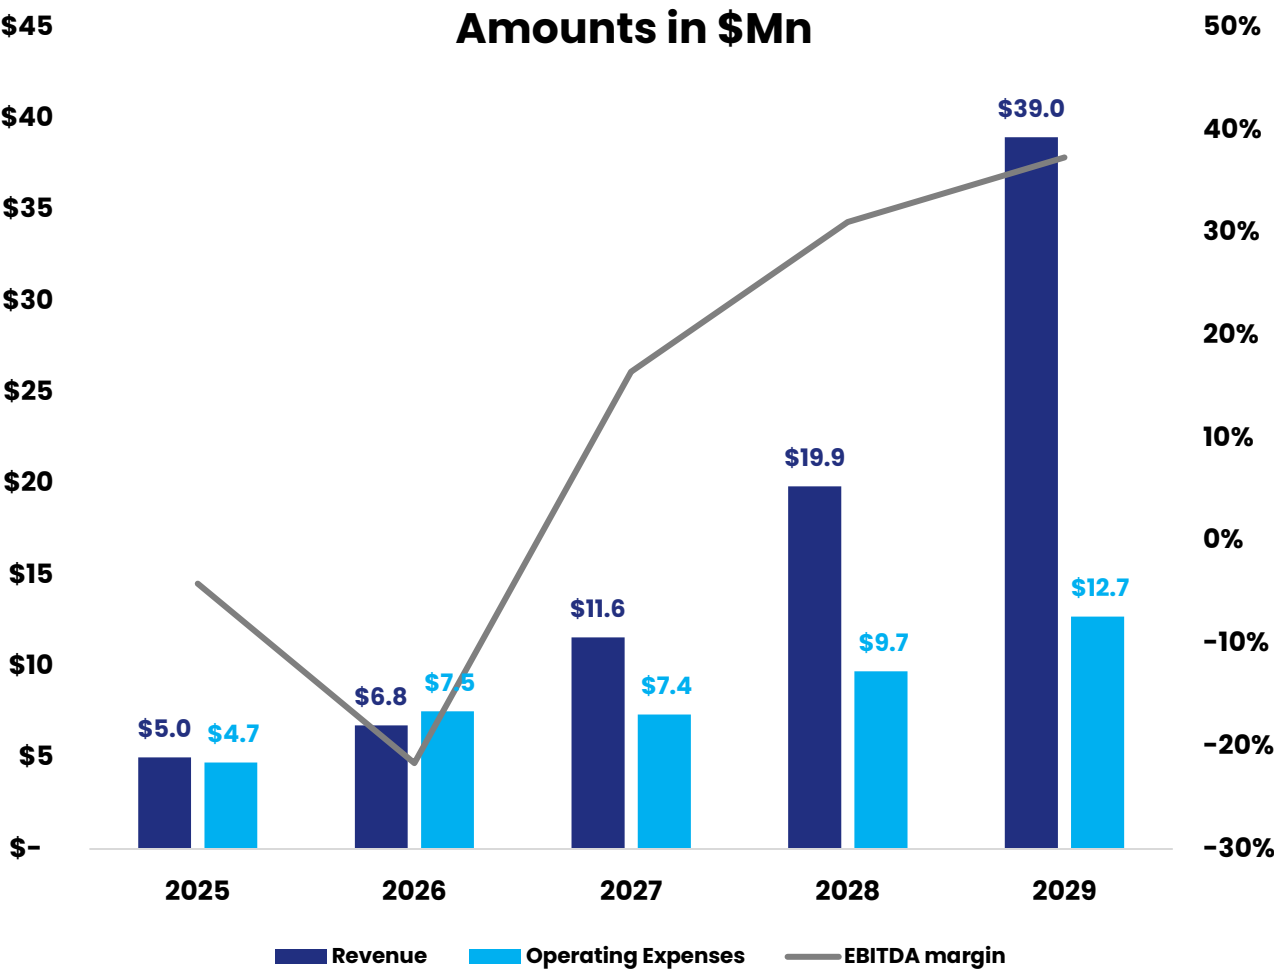

Equity dilution:
Company valuation: \$22 Mn
Equity offered: ~10%

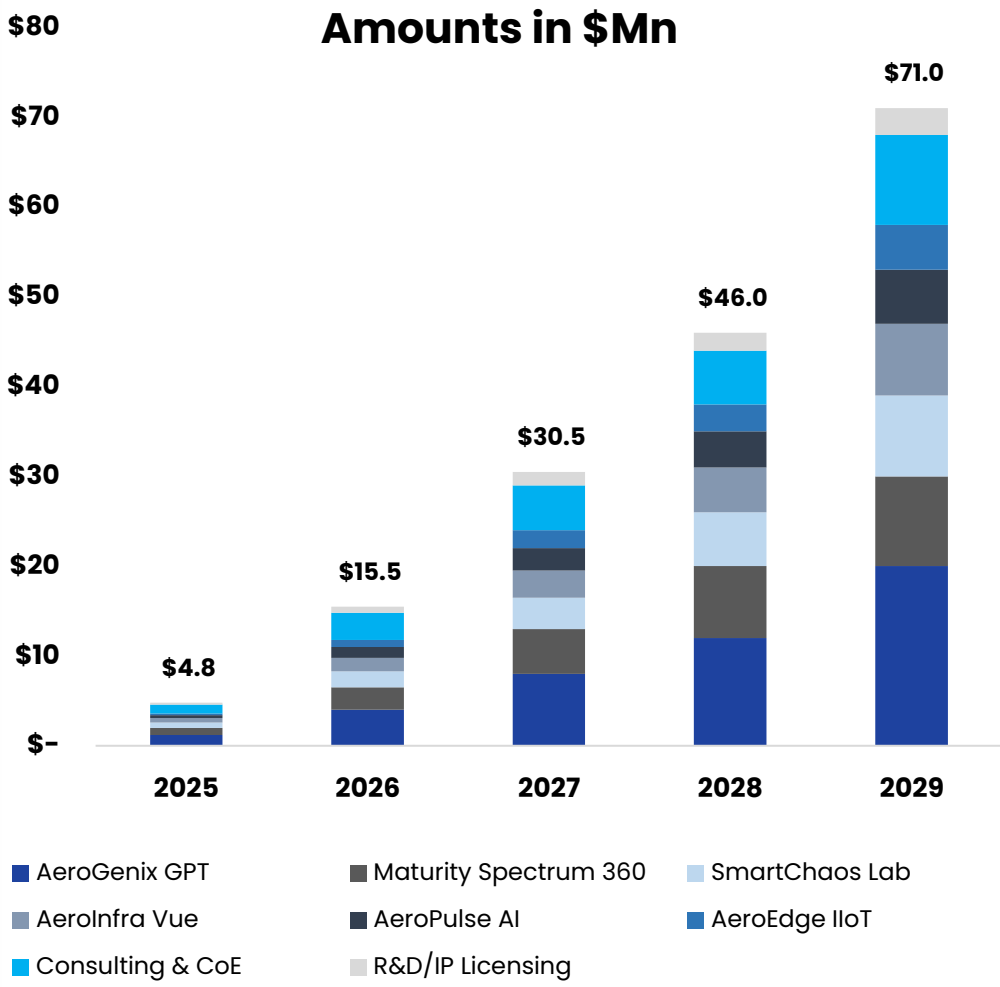

FINANCIAL OVERVIEW

Amounts in \$Mn

Amounts in \$Mn

EXIT STRATEGY

Future funding Round

Potential Series A round of \$5Mn, for remaining product development, expanded marketing & additional Capex.

Acquisition

Investors can take an exit at the time the company is being acquired by a major player

IPO

We are building a public ready company. Investors can exit at the time we go public

THANK YOU

APPENDIX: ADDITIONAL PRODUCTS

Other Products offered:

 SmartChaos Lab	FEATURES 1. Fusion of game theory and machine learning for unique integration. 2. Boosts system resilience and adapts to cloud changes. 3. Proactively predicts system disruptions.
 AeroEdge IIoT	FEATURES 1. Processes Instantaneous edge data processing for efficient operations. 2. Uses machine learning to predict potential failures, reducing downtime & costs. 3. Supports multiple protocols for easy IIoT system integration
 AeroInfra Vue	FEATURES 1. Simplifies infrastructure design and deployment with a zero-code Drag-and-Drop interface. 2. Supports Multi-IAC for designing across various platforms. 3. Enables organizations to manage infrastructure across multiple cloud platforms.
 AeroPulse AI	FEATURES 1. Comprehensive solution for cloud application performance. 2. Maximizes infrastructure efficiency, optimizes performance with stress testing. 3. Detects patterns, anomalies, and issues, reduces noise with fuzzy logic.
 AeroGenix	FEATURES 1. Analyzes real-world systems, identifies defects, and automates repairs. 2. Visualizes system in web/AR/VR environments. 3. Conducts real-time testing and provides feedback.

APPENDIX: PATENTED TECHNOLOGIES

Other Products offered:

AeroGenix

FEATURES

1. A patented augmented reality solution for predictive diagnostics, automated repairs, and real-time visualization.
2. While not part of the current product roadmap, AeroGenix demonstrates AeroAegis’s capability in innovation and cutting-edge technology.

Engagements with Key Partners

1.

- Mastek (Consulting Partner):
- Provides consulting expertise for integrating AeroAegis solutions into enterprise digital transformation initiatives.
 - Currently engaged in two GenAI initiatives with healthcare and finance clients.

2.

- Alibaba Cloud (ISV Partner)
- Joint go-to-market strategy with Alibaba’s vast network, expanding AeroAegis’s reach in the UAE, Europe, and MENA regions.
 - Shared R&D initiatives, including AI-as-a-Service and sustainable cloud solutions.

3.

- NTT (Product Partner)
- Collaboration to deploy Maturity Spectrum 360 and SmartChaos Lab within NTT’s enterprise ecosystem.
 - Enhances product scalability and market credibility with NTT’s global client base.
